

MALACETIC ULTRA®

Shampoo and Spray Conditioner

- Formulated for use on dogs, cats and horses
- Exclusive, patented acetic and boric acid formula plus hydrocortisone and ceramide complex
- Antimicrobial/Antiseborrheic
- Anti-pruritic properties

Indications

For support of healthy skin for animals with bacterial and/or fungal skin conditions. Hydrocortisone helps promote relief for itchy skin. Ceramide complex aids in moisturizing, repairing, and restoring dry, damaged skin.

Active Ingredients

2% acetic acid, 1% boric acid, 1% hydrocortisone, 0.15% ketoconazole, and ceramide complex. Also contains glycerin, polysorbate, and fragrance.

Patented acetic and boric acid based formulation provides these benefits:

- Cleansing, drying, and acidifying
- Degreasing and deodorizing
- Balances skin surface pH making it unfavorable for the overgrowth of fungus/yeast
- Ceruminolytic, keratolytic, keratoplastic, and astringent actions¹
- The acetic/boric acid combination has a synergy giving it cidal activity.²

Hydrocortisone provides anti-pruritic and anti-inflammatory properties.

Ketoconazole provides antifungal properties.

Ceramide complex aids in moisturizing, repairing, and restoring dry damaged skin.
